MOUNT St. MARY's COLLEGE

OFFICE OF THE PRESIDENT

When related to years of college study, and to those years at Mount St. Mary's College, the theme "Almost Heaven" takes on a certain direction and focus. There is an echo here of the familiar Scripture passage that begins, "All the way to heaven is heaven . . ."-which inevitably sparks reflection on the extraordinary beauty and goodness in the world. But all this is of course for those who have the capacity, the desire and the time to first see and then enjoy it.

My hope is that students of the Mount significantly expand and deepen their capacity for seeing, understanding and enjoying during their years of study. And then, once they begin to see and enjoy the truth, beauty and goodness they have come to know and relish here, the rest of their lives will be "Almost Heaven" . . .

What's The Hap's On Campus

Photo above proves that two cones are better than one! At top mid Ellen Ambers practices modeling.

At top left Sr. Teresita is trying out new fashions. At center left, MSMC students are relaxing on the weekend and making funny faces. At center right, Bookstore Tillie is amused at the weekend relaxers next to her. At left bottom of page Maria Enderle checks out scholarly advice from Carol Anderson. At right at bottom, Joan Buswell recreates the role of Mortissa.

OLIVOLOGY 1A

Interterm '83 brought us Sr. Carlotta di Lorenzo's course in **OLIVOLOGY.** The course, held on the front lawn of the administration building, featured the black **olive** variety of the drupaceous fruit of the **olea europaea** family. Sister had her students ponder the question whether the **olive** really was a fruit, or perhaps a vegetable. Sr. Carlotta prepared herself to teach this course at the University of Sicily during a summer travel study.

At top right, Maria D'Addario greases her fingers in **olive** oil as Sr. Carlotta and Diane Krummer gleefully look on. At mid right, Sister Jill Napier looks on in **TOTAL** disbelief. At bottom left, Alison and Linda Johnson enjoy studying the **olives,** but act rather strangely after eating them. At mid bottom, Boots Bower helps Sr. Carlotta gather **olives** for class consumption.

SHE SAID THEY WERE **OLIVES!**

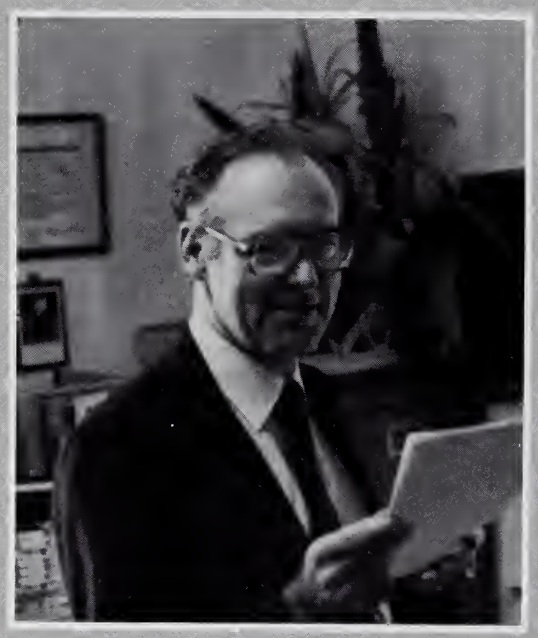
Top left: Cindy Pennig speaks words of wisdom with Dan Licht (registrar). At right, Sr. Teresita moves into comedy. Mid right, Dr. Mabey is in serious discussion as Meryl in the middle hunts down an unautographed purchase order. At mid left, Joan Buswell plays hide and seek with Julie Brown (a favorite game). At lower left, we find that Mimi Simson has lost her class. At lower right, Dr. Brueck lectures a student in Victorian affairs.

And you think you have homework???

Let's see, what were those visiting hours again?



It's so much fun going over Dr. Delahanty's contract!

TGIF!

Exam time already, we just got through the last one!

Prague Hall

PRAGUE HALL, one of the residence halls at the Doheny campus of Mount St. Mary's was given to the Sisters of St. Joseph as a convent in the early 1950's by Countess Estelle Doheny. Today, while serving as a dining and residence facility for Doheny Campus students, the house remains to be enjoyed by students and friends. On Halloween, the basement, with its catacomb-like structure, is used for a spooky atmosphere.

Leadership Conference

The annual LEADERSHIP conference for the Woman's Leadership Program was held again at the UCLA conference Center at Lake Arrowhead on Feb. 19 and 20, 1983. The program, which began in 1974, is directed by Dr. Mabey. In the top photo Lenor Ramriez and Maria Enderle pose for the camera. At bottom, in the top row from Left to Right are: Stephanie Little, Jeannie Kozac, Mary Williams, Terry Vandepas and Dr. Cheryl Mabey. 1983 Yearbook Staff

1983 YEARBOOK STAFF: Instructor, Advisor and Writer, Mr. Kevin Berntson; Coordinating Editor, Dan Moreno; Features, Lenor Ramirez; Activities, Maria Enderle and Mary Cruz; Candids and Opening, Janet Hunt and Photography, Cindy Barreda. Business Management was handled by Mary Cruz.

The 1982-83 Yearbook staff began work soon after school began in September of '82. Initial preparations were made during the summer months as Michael Katakis turned over the advisory role to Kevin Berntson. Dan Moreno, the coordinating editor of the book met with Mr. Berntson to begin recruiting staff members for the book. The staff quickly materialized and met regularly to plan out the ideas for the book and to decide what the book should cover. A first for the Yearbook staff this year is that they receive one unit of credit from the College for work on the book in a course entitled **Workshop in Publications.** During the year, the staff was successful in meeting all of its deadlines. This is a task that is seldom accomplished in most institutions. Interterm provided more time to devote to work on the book, but then most of the staff was off campus, so production was difficult. Even more difficult than usual because there were two deadlines in January. We did, however, survive. Meeting the deadlines is always a challenge and are pressureful periods. However, with the help of good pizza and music on hand the staff forged ahead.

The book was organized this year into various responsibilities. Dan Moreno acted as coordinating editor and was responsible for maintenance of spirit among the group as well as for working on the advertising section and getting the finished copy to the publishing plant. Romi Suzuki was in charge of the people section. Janet Hunt coordinated the opening section and several of the candids pages. Mary Cruz and Maria Enderle rescued the staff during rush periods by preparing a number of pages dealing with activities and features. Lenor Ramirez worked on organizations. Cynthia Barreda helped us with photography. Mr. Berntson filled in the gaps when the staff needed assistance.

Life In L.A.

Life in LA brings so many varieties of living styles and activities that it would be impossible to start to list them all. Music and art abound as does a fairly casual life pace. The weather, of course, is splendid! The rains come occasionally in mid winter, but even then blue skies and temperatures in the 80's are not uncommon. Even though the summer and fall bring smog and very warm days, evening all year remain cool and comfortable. It certainly is an outdoor lifestyle.

Of course, LA is famous for Hollywood, Disneyland, the recording industry and it's weather. Other facets of it's character bring us the freeways, traffic, beaches, flowers all the time and hilly terrain in many parts of the second largest city in the USA. Photos on these pages depict this character from art galleries to beaches, to homes on hills to flowers in bloom at various times of the year.

Young students from local grammar schools were allowed the chance to start early in learning a foreign language. Sr. Eloise Therese and Dr. Walker were the sponsors of the program.

International Students Organization

The International Students Organization was guided by Lenor Ramirez as president during the 1982-83 academic year. The organization which sponsors activities to promote cultural understanding is advised by Dr. Bonnie Fors-Burns.

I.S.O.

Various scenes on this page show members of the I.S.O. at play, tossing waterballoons, having a tug of war and bopping for apples.

Sister Sharon Baker

Sister Sharon Baker, originally from Fresno, Ca., received her B.S. in Biology with a minor in history here at the Mount on June 14, 1961. Since then she has taught at practically every level of education from grade school to Jr. high school and then to the Mount.

Satisfied by her work in education, Sr. Sharon spends much time in helping students through their rough times in academia. Sister started the Learning Assistance Center three years ago and has been it's director since that time. One of Sister's past times has been making the Mount and the Center a homey environment. We applaude Sister Sharon's work in giving assistance to students who occasionally find academic work to be a strain. In our thanks, we dedicate the 1983 yearbook to Sister Sharon.

In Dedication To

Winter storms brought to Mount St. Mary's usually bad situations. In December, phones, heating and light were not available for several days in the dorms and in most of the classrooms. Remember trying to write term papers at the end of the first semester without electricity for the electric typewriters! Brentwood was hit hard, most of L.A. was — even Doheny was experiencing the same difficulties ... no power. Several series of big storms hit during the year. Trees came down (on cars and buildings). Garbage was all over and as scenes on the page indicate, the tennis courts felt their share of the wind. Mike Soto is seen here trying to fix everything up again.

WHEN ALL ELSE FAILS, TRY FOLLOWING DIRECTIONS.

'82 / '83

THE YEAR

Will one remember what was going on during the 82-83 academic year? With all the time and work put into being a student, working part-time to raise tuition money, and simply living the collegiate lifestyle, it may not be difficult to miss the events of our world as they quickly happen. Perhaps we have to stop ourselves and concentrate on being aware of the world as it passes by us. There are times, however, when caught up in academe, that we would rather philosophize and solve the deeper questions of our existance. For many, it seems, 82-83 brought the direction of enjoying searching the questions of living, without the burdens of troubling over the major events of the world.

What did happen since the last official annual journal of Mount St. Mary's College was published. One might say that the year had been an even-tempered year. Let's look at the year and try to weigh it.

Gas prices dropped to '78 prices, **E.T. went home.** Britian bore a new king, **and retained an island in the Atlantic.** We experienced the highest rate of unemployment; **a Reagan was out looking for a job.** TIME magazine's man of the year was the Personal Home Computer, **the artificial heart continued to flutter.** Our hearts went out to Tootsie and Ghandi. The Democrats came out in numbers, **a few Republicans came out too.** Pearl Harbor was 41 years ago, **the Catholic Bishops began to favor nuclear disarmament.** Rock-a-billy was revived as the Stray Cats hit number one, **THE WHO said it was their last.** The San Fernando Valley made the map **(Totally!)** Monday night was freed of football and if you got a headache, you had to be careful what you took for it.

The most eventful year it was not. We should be fortunate though, the year did not bring earth shattering news. It did bring us the golden opportunity to continue to search and grow in our lives without major interruption. Now we look forward to 1983-84 with hope, dreams and ambitions. Our values of PEACE and **understanding** among ourselves will continue to guide our lives. May the great news of the new year be that these values deepen and expand in the hearts and minds of our society.

Jump Rope For Heart

On January 19, 1983, ASB sponsored one of it's healthiest activities of the year. **JUMP ROPE FOR HEART** was organized by the incredible team of Gilma Chang and Imelda Hunkin. Held on the storm torn tennis courts in the encouraging atmosphere of aerobic dance music, two teams of ten jumped to their hearts content! In photos, at top Emelyn Arquellos watches as Lillian Hernandez jumps rope from a typical facile position.

Mid left, Diana Castro gets into the spirit while at right Ana Sandino decides that she'd rather roll. At lower left, Horalia Villaneuva is caught reading up on how to jump rope before it's her turn. At lower right, Ana Sadino decides to stop rolling and start jumping while her team mates and clockwatcher Gilma Chang egg her on.

A View Of Mount St. Mary's Chalon Campus

Commuters

Familiar sights for the commuters who daily make the trek to the Mount. If some aren't careful, Chips will be on their tail (as they and LAPD sometimes hide out on Bundy and/or Barrington) as above. Then there is the long walk from where parking can usually be found. But usually relief is found in the Campus Center where friends meet and smiles are shared.

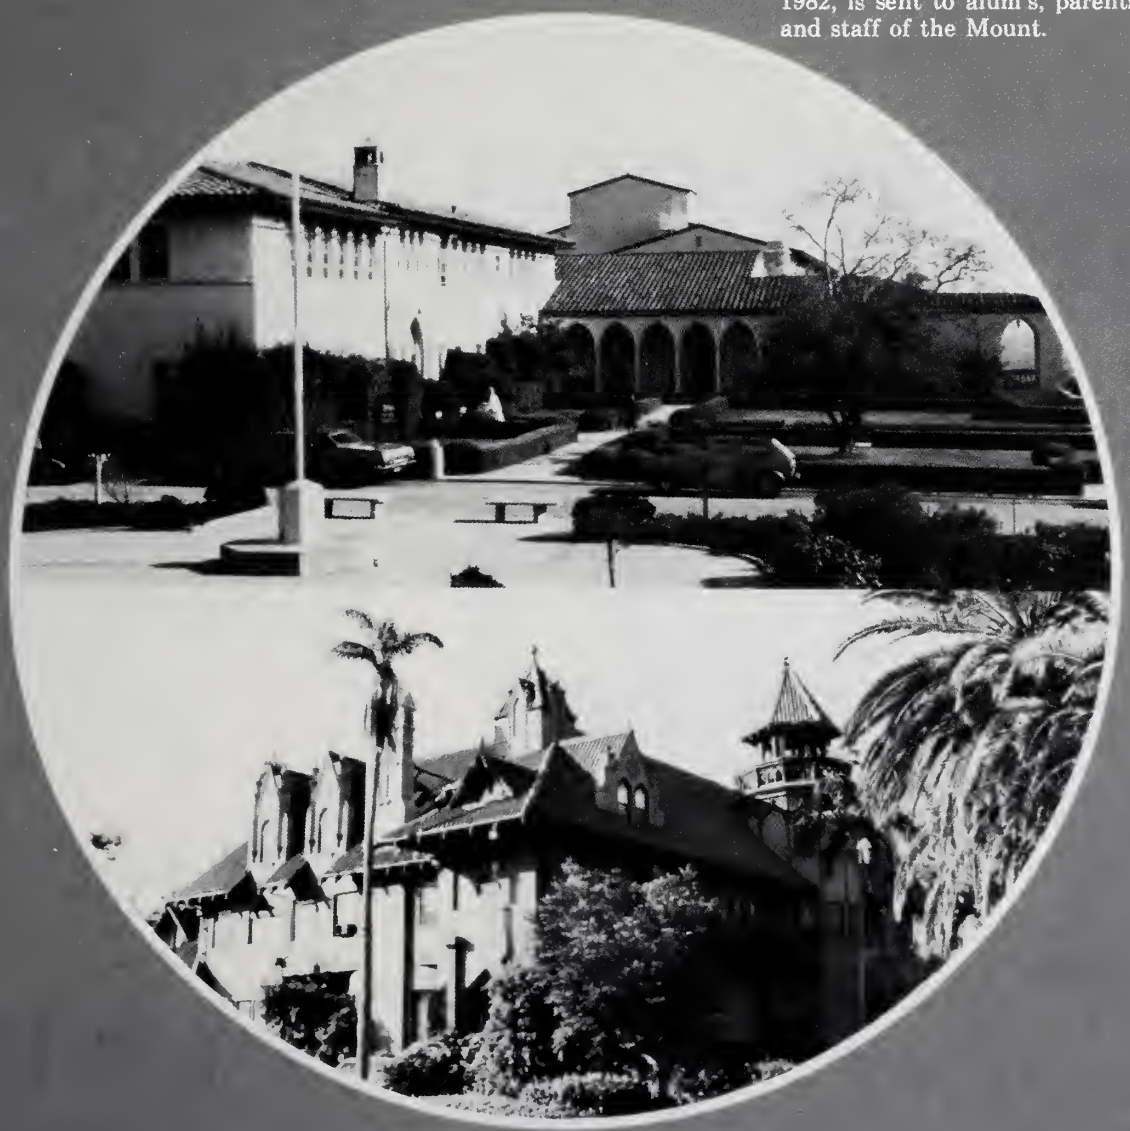
At Daybreak . . . They Appear!

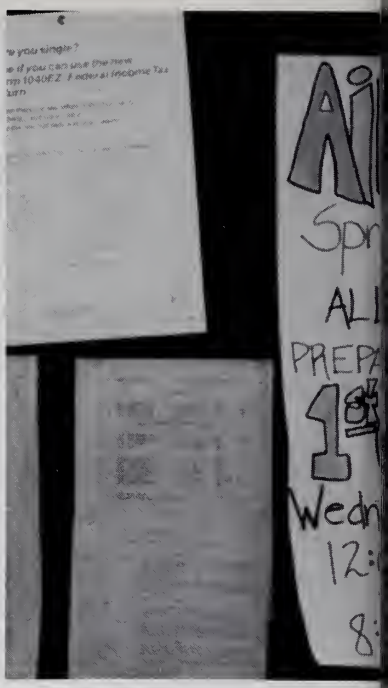
The brave ones, THE COMMUTERS, are the students that must quarrel day after day with the freeways of LA. They are the ones that must keep their cars out of sight of George Priest (writing a ticket in mid right photo). These are the people who keep the campus center spirited and lively during the daylight hours. Good luck on your ride home tonight and may the roads be clear!

Mount St. Mary's College Magazine

December 1982 - Volume 1 Number 1
Los Angeles, California

After a number of years of consideration, the Mount decided this academic year to begin a magazine for the College. Chosen to be the editor was Kevin Berntson who works along with an advisory council to publish the quarterly journal. The council members are: Dr. Barbara Becker, Sr. Joseph Adele Edwards, Margaret Horst, Sr. Catherine Therese, Fr. George O'Brien, Dr. Mariette Sawchuk, Sr. Anne Marie, and Sr. Mary Williams. The magazine, first issued in December 1982, is sent to alum's, parents, friends and staff of the Mount.





SPRING SING, a tradition at the Mount, was held in mid April in '83. Featured among the acts this year were at left Patti Cribbs and at mid right, Rosa Jiminez and Marlo Richman. At top left, Dan Moreno plays jester to entertain the participants of Spring Sing while they rehearsed.

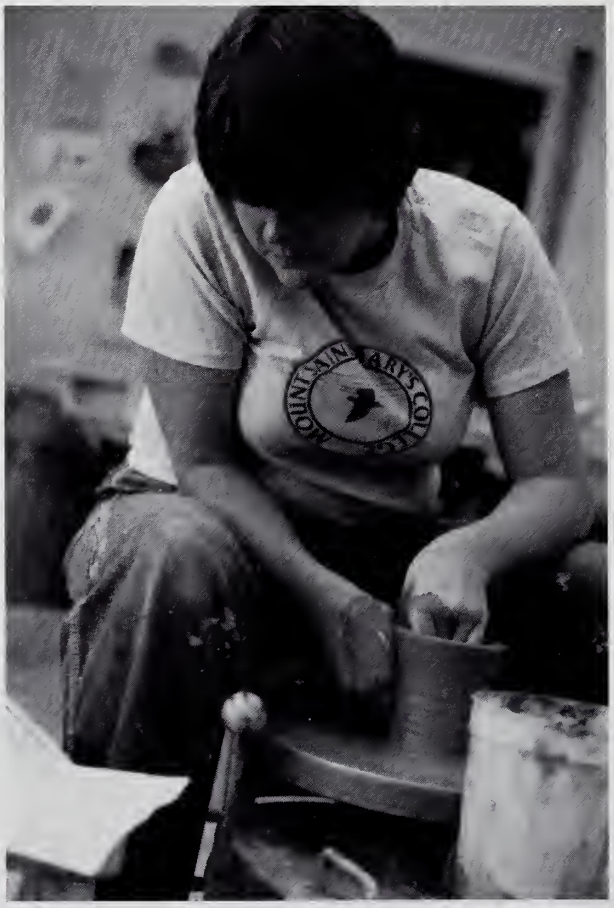
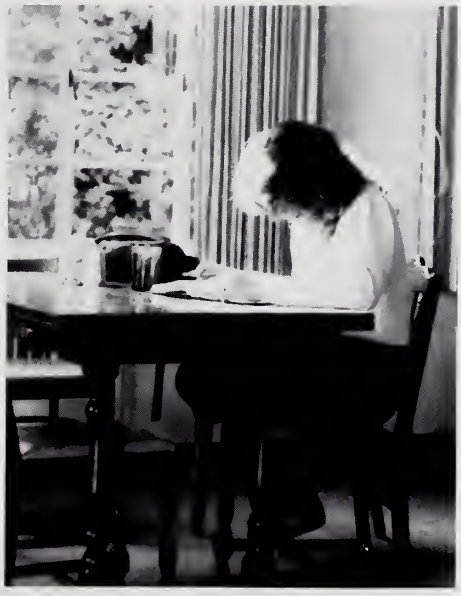
Interterm '83



The Interterm session at Mount St. Mary's is designed to provide a unique educational experience for both students and faculty as well as making use of more off campus facilities and opportunities for enrichment. During the month of January, students ordinarily concentrate on a single course of two to four units. Opportunities are available for students to participate in exchanges at other colleges offering Interterm sessions (the 4-1-4 calendar). Courses that were offered during January '83 included: A travel course to the British Isles with Sr. Mary Williams; a Literature and Science study conducted by Fr. George O'Brien; a study of the Comic Spirit offered by Dr. Brueck; Plays and Politics by Dr. Delahanty and the Arts in L.A. by Sr. Teresita.



In the photo above, Jim Murray conducts his Interterm class, Survey of Modern Art. Students traveled to a variety of LA museums to view the art. Class lectures were held at the Doheny Campus.

Interterm at the Mount enables students and faculty to study in a more relaxed, less pressureful atmosphere. During this time, it is fairly quiet at the Mount as students are off campus with many courses and others only have one class to attend. This gives everyone a chance to spend time engaging in discussions, relaxing at the beach in the afternoon (January '83 brought generally 85 degree weather) and time to engage in creative pursuits.

January is a time in LA when the air is very clear and the weather some years can be quite warm. As is seen on page 122, the view of the mountains with it's snow capped tops is typical of a day in the mid winter in LA. Interterm session affords the time for the Mount community to take in and really appreciate the beauty of Southern California.

Interterm is directed by Sister James Marien Dyer, CSJ. The drawing on this page was done by Jean Bidwell, a 1982 graduate of the Mount. Mount St. Mary's College encourages its students to actualize their gifts and talents, and to develop the intellectual and professional competence necessary for intelligent and concerned citizenship. The purpose of a Mount education therefore encompasses the development of a disciplined and continuing curiosity, a receptivity to new ideas, and the acquisition of the knowledge, skills and values, both personal and communal, necessary to evaluate these ideas and to live them in society.

The Doheny Campus

Downtown Los Angeles

The photos on this page are of different views on the Doheny campus of Mount St. Mary's College. On the previous page (126) one can see the Doheny mansion at the top and bottom at the left. In the middle is one of the newer classroom buildings. At bottom right is Sister Margaret Clare Borchard, CSJ who is a member of the academic resource personnel. Above her are Michael Katakis and Dr. Delahanty, both faculty members.

The College expanded to a second campus location in 1962. The Doheny campus has been named for the former owners Edward L. Doheny and his wife, the Countess Estelle Doheny. The campus is located near the intersection of the Santa Monica and Harbor freeways. The campus is comprised of two blocks of Victorian homes that have been converted into an educational atmosphere. The location, which is close to an industrial section of Los Angeles, as well as close to downtown, is an ideal location for career oriented associate degree programs, graduate programs and certification programs.

The former home of the Doheny's which is located at 8 Chester Place, is a California Historical Monument. The late Victorian structure is used for student and faculty events, both educational and social.

In 1965, an additional building was erected to house classrooms, laboratories and lecture rooms.

Scenes From The Mount

Staff and students find themselves in various amusements on campus. At top left, Kathleen Maloney helps out the Student Development staff by announcing the weeks events on the marquee. At right, Dr. Sawchuk discusses careers opening up for Women in Science. At center left, Liddy Lourito leads her admirers into the circle. In middle, Dr. Becker enjoys an afternoon snack as Rita Kurtz serves coffee. At right, Dr. Mabey wishes she had an afternoon break! At bottom we see a majestic view of the Chalon campus of Mount St. Mary's.

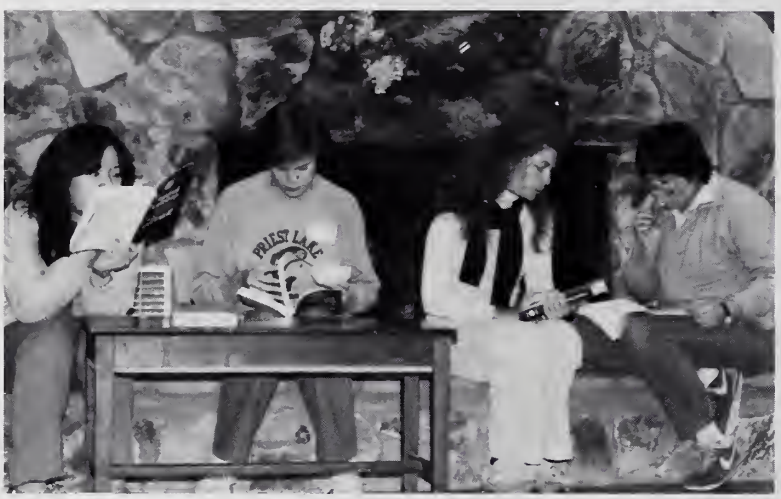
Activities

Chevron Field Trip

Chevron Trip

On September 20, 1982, a group from the Mount visited one of Chevron's offshore platforms in the Santa Barbara Channel. After a welcoming orientation by Mr. J.L. Weaver, Area Superintendent Chevron U.S.A. Inc., the small group took a short boatride to tour Platform Heidi. Heidi and other offshore platforms are designed and built according to specific offshore conditions. The Santa Barbara coastline provides protection for the platforms in the channel from storms occurring in the north northwest. In addition, Chevron designs their platforms to withstand the largest anticipated quake. In case of fire or malfunction, the wells, equipped with safety equipment, will automatically shut down. The platforms are built for the purpose of drilling wells which bring to the surface crude oil and natural gas lying beneath the ocean floor. Heidi is designed for 60 wells producing 4,600 barrels per day. And together with the other platforms, meets the need for energy in the Santa Barbara County. The platforms have also been called artificial reefs for they encourage fish and fowl to congregate beneath or on the platform legs.

Fall Intensive Journal Workshop Retreat



This years fall retreat was held at Sacred Heart Retreat House in Big Bear, CA. The retreat took place on October 29 to the 31st, 1982. Sr. Mary Patricia Sexton, CSJ was the retreat master. The retreat was organized by Campus Ministry.

Movies On The Mount

On November 5, 1982, the Mount's Chalon campus was the scene for the filming on a TV pilot starring Willie Ames for the Tom Swift/Linda Craig Mystery Hour. Ames plays an investigator for the pilot film.

Ames, a fifth generation California native, lives in Newport Beach. The 22 year old actor has been married for three years and has a 16 month old baby boy named Chris. His life in show business started 13 years ago in a part in a commercial. The role as Tommy Bradford in "Eight is Enough" came about when he was still in high school. In response to his success in the acting profession, Ames believes it is all in a "matter of attitude". He says that he loves his job and really has been lucky. His desire as an actor is to promote the good side of the Hollywood industry traditionally known as egotistical. He believes that entertainment should be a fun activity and because of notoriety, it should not be carried too far.

Horizons

HORIZONS this year was held on September 22, 1982. Actress **Barbara Hershey** spoke on women in the work-a-day world and the film **WORKING** which was also shown to the students and staff attending her speech. **Working,** which was also the theme title for this years Horizons, is a film adaptation of the book by the same name by Studs Terkel. In the photos above, we see at top left, Barbara Hershey, Sr. Magdalen and Phylis Geller (the producer of the film), at right: Ms. Hershey speaking with students, below, Sister Aline Marie Gerber, CSJ, speaking with students, and bottom, students receiving refreshments in the campus circle donated by the College.

International Gourmand Series

The first event in the **INTERNATIONAL GOURMAND SERIES** was a taste of real Japanese cooking. Held in the Casa on November 8, 1982, Maria Enderle and Romi Suzuki took charge of the kitchen. A dozen students and faculty members participated. Everybody learned to make **Norimaki** (rice rolled in seaweed) and other Japanese specialties. The use of chopsticks and Japanese seasonings was also emphasized.

Le Fleur De Lis

A Grand Masquarade

The **Fleur de Lis Ball** for 82-83 was held at the Marina International Hotel on Saturday October 23, 1982 in Marina Del Rey. The theme this year was "A grand Masquarade Ball". Masks were provided for the formal ball. Cocktails were a seven, dinner at eight followed by dancing until 1 AM.

Dr. Young was for many years a professor of education at Mount St. Mary's. In these photos we see (top left); Alums being served dinner, (top right) Sister Rose de Lima, CSJ; Dr. Roland Young and Sister Magdalen Coughlin, CSJ, president; at the high table. Campus Ministry

The **campus ministry** program at Mount St. Mary's, under the direction of Sisters Theresa Harpin, CSJ and Marilyn Louise Binder, CSJ sponsors several activities throughout the year. Among these are liturgical events, retreats and other spiritual and counseling oriented activities.
